

  
**SCOTT DODSON**  
*Director of Operations*

March 20, 2023

---

Aerial Data Service (ADS) is pleased to announce the appointment of Scott Dodson as the new Director of Operations. With Scott's experience in the field of photogrammetry and operations management, he is expected to lead the company towards further growth and success.

Scott Dodson is a highly qualified professional with over 30 years of experience in the geospatial industry. He is a Certified Photogrammetrist and has a proven track record of managing a variety of projects in numerous industries. He has built aerial and drone camera systems and was responsible for accuracy testing and calibration. His expertise in photogrammetry and operations management makes him the perfect candidate to take charge of the management of ADS.

In his new role, Scott will be responsible for overseeing the day-to-day operations of the company and ensuring that ADS clients receive the standard of service in which they are accustomed. He will also play a key role in developing and implementing strategies to further expand the service offerings at ADS.

"We are thrilled to have Scott Dodson join our team," said Regina Carter, President of Aerial Data Service. "With his wealth of experience in photogrammetry and operations management, we are confident that he will lead our company to new heights of success."

Aerial Data Service is a leading provider of geospatial services. The company has served clients nationwide since 1964. With the appointment of Scott Dodson, the company is poised for further development and expansion in the coming years.
